- I. That the EISENHOWER FELLOWSHIPS is a private non-profit organization based in Philadelphia that was founded in 1953 by a group of American citizens with the purpose of honouring the memory of President Dwight David Eisenhower. One of the objectives that the Foundation has is the promotion of the exchange of information, ideas and perspectives among emerging leaders for the interest and promotion of peace and prosperity.

Overall, in its more than half century of existence, the EISENHOWER FELLOWSHIPS has carried out a fruitful work in identifying emerging leaders in all countries of the world and providing them with scholarship programs in the United States – but also, occasionally in other countries – in order to strengthen their professional capacities, expand their contacts, and enlarge their prospects for future progress in their respective fields of expertise.

In short, the EISENHOWER FELLOWSHIPS fosters the affiliation to a large international community of over 1,600 *fellows*, including leading political figures, university figures, relevant business and professional leaders, among others, whose aim is to stimulate dialogue, understanding and international collaboration leading to a more prosperous and peaceful world.
